Dear Parents and Guardians,

RE: Parent Contributions 2024

Hughesdale Primary School is looking forward to another great year of teaching and learning and would like to advise you of our school's voluntary financial contributions for 2024.

Schools provide students with free instruction to fulfil the standard Victorian curriculum and we want to assure you that all contributions are voluntary. Our school receives valuable support both financial and non-financial from our parent community which has contributed immensely to the educational experience for our students. This has made a huge difference to our school and the programs we can offer.

The Hughesdale Primary School Council is responsible for developing and approving the Parent Payment contributions as outlined below within the Department of Education's framework.

The school makes every effort to keep costs to a minimum and only request contribution that we believe will add value to the school experience for students. We look forward to your support in 2024 to enhance the educational outcomes for all our students.

Parent payments are requested by 31st January 2024. We want to thank you in advance for your support.

Yours sincerely,

Dean Napier

Acting Principal

Kirsten Williams

School Council President

In 2024 the Parent Payment contributions are categorised as follows:

1. Curriculum Contributions;
2. Other Contributions; and
3. Extra Curriculum Items and Activities.

1. Curriculum Contributions

Curriculum Contributions (previously known as Essential Student Learning Items) support items and activities that help deliver fundamental curriculum or subject learning. These include general classroom materials and a charge for ICT equipment and associated technology such as the purchase and maintenance of devices for use in classrooms, along with peripherals and connectivity.

2. Other Contributions

Other Contributions (previously known as Voluntary Contributions) support four areas of the school's operation, to improve learning outcomes.

The Victorian Department of Education provides funding to schools through the School Resource Package (SRP) that is supplemented through locally raised monies via fundraising, the hire of facilities and family contributions. The SRP includes funding for staffing, the standard curriculum program, equipment, and operational costs such as utilities, maintenance/urgent works and resources and cleaning. Approximately 90% of the SRP funding is required to cover the cost of the employment of staff. This leaves just 10% to meet all other operational costs, maintenance of our facilities and curriculum opportunities, so we appreciate additional contributions from parents and carers.

We are extremely grateful to all our school families who have paid their 2023 school fees which has made an enormous difference to our school.

In 2024 we will require your support again as we have major plans to continually improve our school and make a significant difference to the education we provide.

3. Extra-Curricular Items and Activities

Payments for Extra-Curricular Items and Activities (previously known as Optional Items) provide for items and activities over and above what is needed to deliver fundamental curriculum learning.

Excursions, incursions, camps and sports will be charged separately for students as needed through the Compass portal.
